Students' Feedback Analysis

Year 2022—2023

Feedback report: The students are the major stakeholders, and the feedback of students give the input regarding enhancing the quality of teaching and learning process for the students. The feedback is valuable for the institution and it provides the institution to analyze and improve the shortcomings. In general the students are happy with the institute and they rated the performance of the institution as "Excellent" and "Good". However, the students suggested that there should be more usage of teaching aids and ICT in the class by faculty to facilitate teaching.

Action Taken: As per the suggestions the institution did the following analysis from the feedback received. The institution took the suggestion seriously and the college authorities resolved that more LCD projectors be installed in classrooms, the number of smart classrooms be increased and every academic department be provided with personal LCD Projectors along with display screens to facilitate the faculty for ICT enabled teaching.
